# Message from The Principal

As the early childhood educator Maria Montessori rightly said, "The most important period of life is not the age of university studies but the first one, the period from birth to the age of six."

Formative stages of learning are very essential periods in a child's life and should be given much focus and attention for numerous reasons.

In the grand tapestry of child's education, significance of pre primary education lies in

- Building a strong foundation
- Preventing learning gaps
- Cultivating love for learning
- Parental involvement

We at Vedanta create an environment that fosters healthy competition that incessantly improves learning outcomes and ensure fostering inclusion. In order to ensure the success of future generations, it is the parents' responsibility to optimize the early years of their children's education. It is the most powerful investment they can make towards ensuring a bright future for themselves.

S.Maya  
Principal

# Message from The Pre-Primary Coordinator

“If a child can't learn the way we teach, teach the way they learn”  
-Ignacio Estrada

We at Vedanta follow thematic curriculum which includes constructive play and activities that promote positive and happy learning.

We provide activity based learning that contributes to the students holistic development including physical, cognitive , language and socio- emotional domains as well as acquisition of life skills, attitudes and values.

As a team we believe in moving ahead with all our stakeholders and strongly feel that education is a shared commitment between dedicated teachers, motivated students and responsible parents.

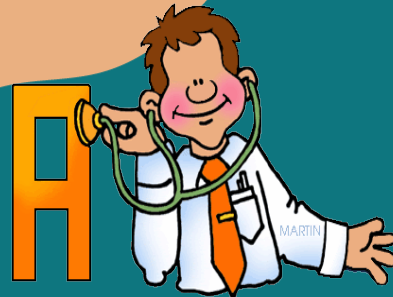

Together we shall make Learning a Joyful process.

B Deepa  
Pre Primary Coordinator

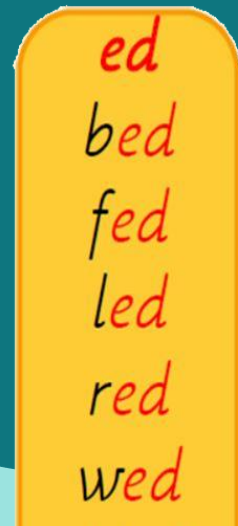

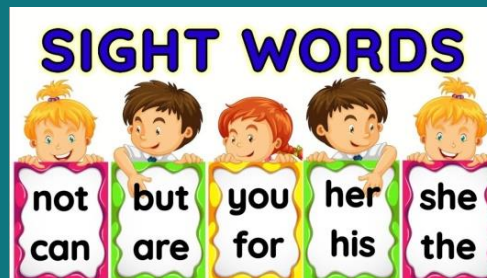

## Plants and Animals

# What did our Chingums learn this month?

- To share, care and show empathy towards animals.
- Identify and say the sounds of letters.
- Express their thoughts.
- Read and write 'ed' and 'en' words.
- Read and use the sight words to read sentences.
- Count, read and write numbers from 51 to 60.
- Identify thin and thick objects.

# Activity Time

## Theatre in Education- Imaginary Play

The clay modelling activity brought out the inner talents of the children and they made a robots, soldiers, dancers, cartoon characters and much more.

# Activity Time

Building words

This CVC word building activity helped young children learn letter recognition, beginning and ending sounds, sound isolation, and consonant-vowel-consonant (CVC) words.

# Activity Time

VEDANTA  
ACADEMY

Numbers- Place value

This hands-on activity provided our learners a clear understanding of numbers and its place value.

# Activity Time

## Gross Motor Activity-Jumping over the Hurdles

Jumping activities are not only fun, but they also enhance muscle development, eye hand coordination and improves concentration which indirectly helps children perform better in academics

# Activity Time

## Matching Flowers with Names

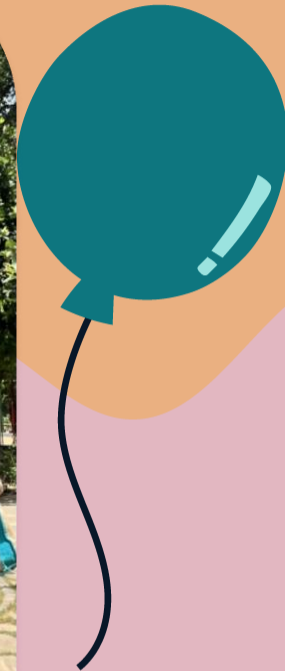

children learnt to identify flowers, colours, and they were able to match the names with the flowers.

# Creative Corner

Watching our  
“ little painters”

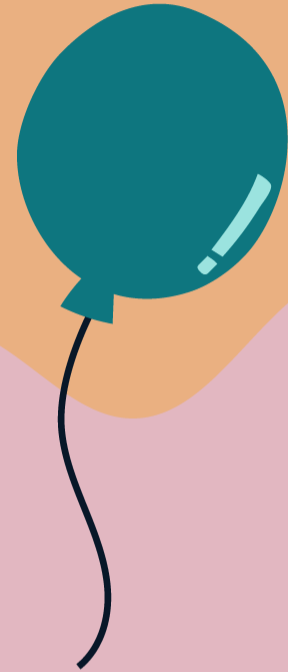

# Field Trip to Children's Park

The students of PP 2 and PP 3 were taken for a field trip to the Guindy National Park. The objective of this trip was to provide authentic and experiential learning opportunities where students could connect with what they had learnt in the classroom.

# What's coming up next month?

Diwali Celebration- 29-10-2024,Tuesday

# Thank you!
