Message from The Principal

Learning about animals provides a comprehensive foundation for children, influencing not only their knowledge but also their emotional intelligence, sense of responsibility, and connection to the natural world. These early lessons create a foundation that contributes positively to their development and to society.

It also helps them in

- Developing Empathy and Compassion
- Improving Social and Emotional Skills
- Building Responsibility and Accountability
- Patience and Trust
- Adaptation and Resilience
- The Value of Cooperation

These lessons enrich kids' understanding of the world, cultivating their ability to connect compassionately with others and encouraging them to grow into responsible, thoughtful individuals.

S Maya
Principal

Message from The Pre-Primary Coordinator

Dear Parents,

This month, our young learners have been exploring new topics in the classroom! They've been learning about various animals, familiarizing themselves with letters and phonics, and practicing numbers with its quantity. Each activity is designed to encourage curiosity, and foundational language and numeracy skills.

We encourage our ever -supportive parents to use the digital resources provided to engage children purposefully at home. Children might enjoy sharing their favourite animals or practicing letters and numbers with you at home!

Thank you for your continued support in their learning journey.

-B Deepa

Pre -Primary Coordinator

Theme of the Month : Animals and Plants

What did our Chingums learn this month?

Learning Outcome

- ☐ Read and Write CVC Words ('ed' and 'en' words)
- ☐ Read and use sight words to read sentences
- ☐ Sort fruits and Vegetables
- ☐ Identify and differentiate trees, shrubs and herbs
- ☐ Read and write numbers from 51 to 60

Activity Time

Cotton Work

VEDANTA
ACADEMY

Cotton work activity engaged children in a sensory-rich experience, helping them develop fine motor skills, creativity, and understanding of textures.

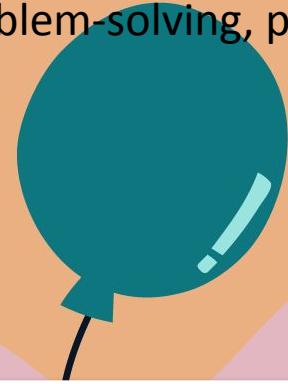

Activity Time

Paper Craft- Snake

VEDANTA
ACADEMY

The Paper craft activity paved way for young learners to develop their creativity, fine motor skills, and hand-eye coordination. This activity also encouraged problem-solving, patience, and the ability to follow simple instructions.

Activity Time

Hands On Activity-Animals and their Homes

VEDANTA
ACADEMY

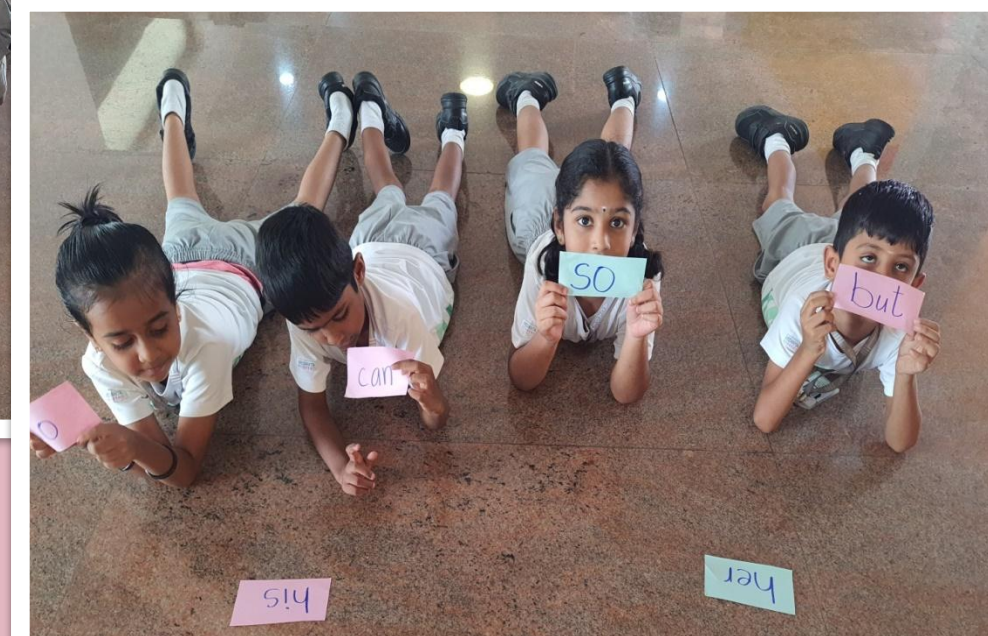

"Matching Animals with Homes" activity helped our young learners to explore animal habitats while reinforcing basic concepts like matching, animal recognition, and the relationship between animals and their environments.

Activity Time

Identifying Sight Words

"Creep and Identify the Sight Words" helped young children practice and identify sight words while engaging in physical movement. This activity not only encouraged literacy skills but also to develop gross motor skills, coordination, and focus.

Activity Time

Hands –on Activity- Animals and their Products

VEDANTA
ACADEMY

The activity encouraged young children to learn about the relationship between animals and the things they provide, such as milk, eggs, wool, etc. This activity enhanced knowledge of farm animals, promoted vocabulary , and strengthened matching and cognitive skills.

Activity Time

Making New Words

Objective of the activity is to help children practice identifying and creating CVC words by manipulating the beginning, middle, or ending sounds to make new words. This activity helped children to build phonemic awareness, and supported early reading skills.

Activity Time

Fun with Beads and Numbers

This hand on activity helped children to identify numbers and its place

Activity Time

Crawl and identify the crawling animals

VEDANTA
ACADEMY

The activity helped children learn about different crawling animals while engaging in active play, improve their gross motor skills, and develop an understanding of how different animals move.

Activity Time

Hands On Activity-Animals and their Homes

VEDANTA
ACADEMY

"Matching Animals with Homes" activity helped our young learners to explore animal habitats while reinforcing basic concepts like matching, animal recognition, and the relationship between animals and their environments.

Assembly Time
